Psychologist

Vancouver Island Psychological Services is the largest private psychology clinic in beautiful Victoria, B.C. We provide a wide range of psychological assessment and treatment services to children, adolescents, and adults with a wide range of presenting problems and concerns. In addition to seeing many clients who are self-referred, we work with a number of third-party referral sources including physicians, lawyers, insurance companies, police services and Veterans Affairs Canada. More information about our clinic can be found on our website (www.vipsychology.ca).

We are currently seeking Doctoral-level psychologists who are registered or eligible to be registered in B.C. to join our team in an associate capacity. We are a very busy practice with a lengthy waiting list, and this, therefore, represents a unique opportunity to take on a full case load almost immediately, with potential earnings ranging from \$100,000 to \$150,000 or more annually (based on seeing four to five clients per day).

Private practice work allows psychologists to pursue their particular areas of interest and expertise, and associates at Vancouver Island Psychological Services have the flexibility to tailor their caseloads to their own particular preferences (e.g., assessment vs. therapy, children vs adults, types of presenting problems, etc.). Further, we have an administrative support team consisting of five staff members, a comprehensive test library with access to a Psychometrist, and we offer a supportive and collegial working environment.

For more information, or if you are interested in this opportunity, please contact Dr. Tanna Mellings, Clinic Co-Director, by email at tmellings@vipsychology.ca or by telephone at 1-877-727-7060.
