

Clinical Child Psychologist

Island Health has exciting opportunities for a **Clinical Child Psychologist** based in Victoria and Nanaimo.

VICAN – The Vancouver Island Children's Assessment Network (VICAN) provides specialized assessment services to unique groups of children within multidisciplinary team environments. In B.C., regional health authorities in partnership with the Provincial Health Services Authority have created Assessment Networks throughout B.C. to provide multi-disciplinary assessment services for children (0-19 years). The Vancouver Island Children's Assessment Network (VICAN) provides these assessment services for children on Vancouver Island with complex developmental needs. Children who may have Autism Spectrum Disorder (ASD) and/or other Complex Developmental Behaviour Condition (CDBC) are assessment through the VICAN Service and are seen by one of our Island based regional teams or the Outreach Service.

You will be part of a regional group of psychologists providing this same service and receive collegial support and training both regionally and provincially to ensure Provincial Clinical Standards and Guidelines are met by our service. Training is provided by the British Columbia Autism Assessment Network to become a provincially designated Qualified Specialist for autism assessment.

As the Psychologist, you are part of a supportive multi-disciplinary team, which may include a paediatrician, occupational therapist, speech-language pathologist and social worker. Working together to formulate appropriate diagnoses for referred children, the team provides recommendations to assist parents and community professionals working to support the child. Please contact: Heather Fox, Program Coordinator, at M.Fox@viha.ca if you have questions about the position.

Early Intervention Program – The full-time Clinical Child Psychologist position located in Victoria is a 0.3 FTE in the Early Intervention Program provides two key functions:

- Cognitive assessments to identify intellectual disabilities
- Support planning for therapy/intervention and designation for funding and consultation within a multidisciplinary team to develop intervention strategies for children with challenging behaviours
