

Psychologist – Surrey and Vancouver, BC

A \$10,000 sign-on bonus is only one of the benefits you can expect when you join CBI Health Group/OrionHealth as a Psychologist. If you are an experienced clinician that is looking for a strong peer environment, opportunities for related clinical education and interesting areas of practice within an interdisciplinary team environment, then this opportunity might be for you!

As a Psychologist within our **OrionHealth** team, you will be responsible for the provision of clinical services for our patients referred for psychology services. This will include consultation, evaluation, assessment, diagnoses, interventions, monitoring of progress/outcomes and discharge with individuals and/or groups. The caseload consists of treating adult clients within a variety of different contexts (e.g., pain management, occupational rehabilitation, and trauma treatment).

QUALIFICATIONS

To take on the role of Psychologist, you must:

- Hold a doctorate degree in Clinical Psychology or a related field (e.g., Counselling Psychology)
- Be registered or eligible for registration with the College of Psychologists of British Columbia
- Have experience with trauma/challenging populations
- Have experience with Psychological Assessment
- Be able to work both autonomously and as part of an interdisciplinary healthcare team
- Have a high degree of proficiency in problem solving and decision making
- Be efficient and responsive in the provision of required clinical documentation
- Have experience working with clients that are referred through third party insurers such as WSBC and LTD (asset)

About CBI Health Group:

CBI Health Group is Canada's largest provider of integrated community healthcare. For over 40 years, we have remained totally committed to improving the health and enriching the lives of Canadians.

What sets us apart is our ability to work as a unified network dedicated to the ongoing learning that allows us to foster best practices, improve access to care and create better results for our patients. We organize our teams and services to ensure the right professionals and caregivers provide the right service, at the right time, in the right place.

In over 250 facilities, our services are provided by a dedicated team of more than 11,000 administrators, support staff and care providers that include physiotherapists, occupational therapists, registered massage therapists, kinesiologists, chiropractors, speech-language pathologists, psychologists, physicians, nurses, dietitians and behaviour therapists.

The CBI group of companies includes CBI Health Centres, CBI Home Health, We Care Home Health Services, Monarch House, CBI Workplace Solutions, and CBI Assessment Services. Our expanding transitional and residential community care network now numbers more than 60 homes nationwide.

At CBI, our people really care and believe that by working together, we can aim higher and make great things happen every day.
